## 4. PREPARATION FOR CONSUMPTION / STORAGE CONDITIONS OF READY-TO-USE PRODUCT

### Storage and transportation temperature, °C

<b>Storage and transportation temperature, °C</b>	<b>Shelf life at such temperature</b>
-18° C	9 months

✓ **Precaution: Do not refreeze after defrosting!**

### PREPARATION FOR CONSUMPTION

#### Preparation for consumption

Defrost at room temperature for 30 min.

✓ **Consume just after baking as soon as you are sure that it is not hot.**

#### Serving tips & recommendations (suggestions)

Can be re-heated in the oven around 8-10 minutes at 180 °C (it also depend on the filling).

If different method of product preparation is used instead of following instructions specified, the customer must ensure that the final product complies with food safety requirements and is safe for consumption.

## Storage conditions and shelf life of product after defrosting

In unopened package shelf life of product  
at room temperature days  
270

Including after removing shelf life of product  
from the package days  
at room temperature 30

## Other information

For products placed on the market or labelled prior to the last change made in this specification, some information on the packaging may be differ from the present specification, until the stocks of the products are exhausted. Comply with the legal requirements of Republic Lithuania and European Union. Produced in accordance with Technical Documentation of the Company. Critical Control Points are controlled by the HACCP system.
